Potato boom - code 4306

- Versatile, comfortable, durable. Easy to use and to maintain.
- Ideal sprayer for a technological and rational agrochemical application, respecting the operator and the environment.

- The same parts and accessories for the two models, 16 and 20 litres.
- The combination of special anti-corrosive metals and plastics result in more resistance and less weight.

- A wide range of optional accessories can be used with the sprayer for different types of application making the sprayer cost effective.
- Optional accessories: Dosage kit, soil injector, universal booms, horizontal and vertical booms, lance extension, valves, nozzles and tips. Lurmark kit with 3 nozzles and a filter.

- 1 Réservoir ergonomique fabriqué d'un matériel résistant aux rayons UV avec mesures en litres, conçu pour plus de confort et une plus grande durabilité.
- 2 Poignée incorporée dans le réservoir pour faciliter le transport.
- 3 Une pompe à piston anti corrosive qui facilite la manipulation avec ses deux bagues qui offre de pression variable
- 4 Mélangeur interne Internal agitator that avoids product sedimentation.
- 5 Bichromated curved lance with lateral fixing, super 3 valve with locking device for continuous or intermittent spraying and universal tip with adjustable nozzle.
- 6 Eezispray valve, with predetermined pressure that allows uniform applications reducing the consumption of agrochemicals by up to 40% and less effort from the operator.

- 7 More comfort with padded straps and adjustable buckles.
 - Progressive filtration in four stages, with filters in the tank, in the pump, in the valve handle and in the nozzle. Does not block.
 - Symmetrical structure which allows instant changeover of the operating side without the use of tools.
- The following is supplied as standard equipment.
- A service kit with most used spare parts and nozzle for herbicide application.
 - A universal tool.
